OUTSIDE**REAR GARDEN**

One of the property's most notable features is the exceptionally generous and mature

rear garden, extending to approximately half an acre in total. Immediately beyond the rear of the house is a small paved terrace, which leads into the principal area of garden. This is predominantly laid to lawn and enclosed by well-stocked borders containing a wealth of mature shrubs, flowering plants and established trees.

The principal lawn extends towards a former pond, which is surrounded by further mature planting and trees. The garden then continues around either side through established foliage to a second, more expansive section, again predominantly laid to lawn.

Beyond this is a productive orchard area, with gooseberry bushes and a plentiful collection of extremely mature apple trees, together with a number of pear trees and a quince tree. The orchard continues towards the very rear of the plot, where a particularly impressive and exceptionally mature apple tree, believed to be over 100 years old, forms a striking focal point within a secluded area laid to wood chippings. Further mature shrubbery and trees provide additional interest, together with a composting area.

The garden is particularly private and mature, with its rear boundary defined by an established tree line which separates the property from the playing fields beyond.

SIDE ACCESS & OUTBUILDINGS

The property benefits from good-width side access on both sides, providing convenient pedestrian access between the front and rear gardens.

To one side, accessed from the utility room, there is a timber-fenced passage with gate leading around to the front.

The opposite side is accessed directly from the kitchen/breakfast room and features brick-built adjoining storage areas, covered storage and timber side gates leading back around to the front of the property. A timber storage shed is positioned alongside, together with a cupboard housing the gas-fired boiler, which provides the property's hot water and central heating, and rear access to the garage.

FRONT GARDEN & DRIVEWAY

The property is approached from Barton Road via a dropped kerb leading onto a gravel driveway. The driveway is particularly private and enclosed with mature trees and shrubs, providing generous off-road parking and access to the garage.
