Energy performance certificate (EPC)

Oaklands Shirley Holms LYMINGTON SO41 8NH	Energy rating **C**	Valid until:	**9 August 2036**
		Certificate number:	**0151-3065-4208-1786-1204**

roperty type	Detached house
otal floor area	350 square metres

Rules on letting this property

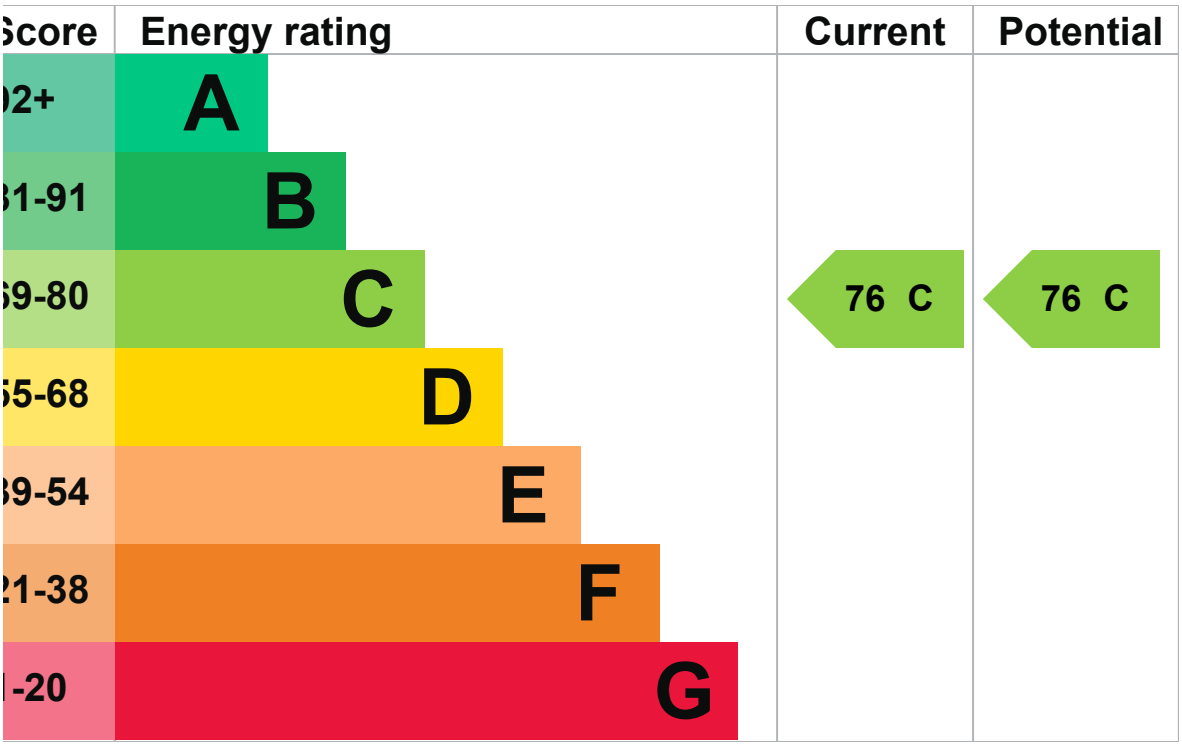

operties can be let if they have an energy rating from A to E.

u can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-inimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

is property's energy rating is C. It has the potential to be C.

e how to improve this property's energy efficiency.

e graph shows this property's current and potential energy rating.

operties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are ely to be.

r properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

eatures in this property

atures get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well atures work or their condition.

sumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

ature	Description	Rating
all	Cavity wall, filled cavity	Good
all	Cavity wall, as built, insulated (assumed)	Good
oof	Pitched, 300 mm loft insulation	Very good
oof	Flat, insulated	Good
oof	Pitched, insulated	Good

ature	Description	Rating
ndow	Mostly double glazing	Average
ain heating	Boiler and radiators, mains gas	Good
ain heating control	Programmer, room thermostat and TRVs	Good
t water	From main system, plus solar	Very good
ghting	Below average lighting efficiency	Average
oor	Solid, no insulation (assumed)	N/A
oor	Solid, insulated (assumed)	N/A
tightness	(not tested)	N/A
condary heating	Room heaters, wood logs	N/A

ow and zero carbon energy sources

w and zero carbon energy sources release very little or no CO2. Installing these sources may help reduce energy bills as well as tting carbon emissions. The following low or zero carbon energy sources are installed in this property:

- Biomass secondary heating
- Solar water heating
- Solar photovoltaics

rimary energy use

e primary energy use for this property per year is 105 kilowatt hours per square metre (kWh/m2).

About primary energy use

dditional information

ditional information about this property:

- PVs or wind turbine present on the property (England, Wales or Scotland)
  The assessment does not include any feed-in tariffs that may be applicable to this property.

mart meters

is property had **smart meters for gas and electricity** when it was assessed.

nart meters help you understand your energy use and how you could save money. They may help you access better energy dea

nd out about using your smart meter (https://www.smartenergygb.org/using-your-smart-meter)

low this affects your energy bills

average household would need to spend **£2,800 per year on heating, hot water and lighting** in this property. These costs ually make up the majority of your energy bills.

u could **save £0 per year** if you complete the suggested steps for improving this property's energy rating.

is is **based on average costs in 2026** when this EPC was created. People living at the property may use different amounts of ergy for heating, hot water and lighting.

---

eating this property

timated energy needed in this property is:

- 26,347 kWh per year for heating
- 2,660 kWh per year for hot water

mpact on the environment

is property's environmental impact rating is C. It has the potential to be C.

operties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

arbon emissions

n average household produces	6 tonnes of CO
his property produces	6.2 tonnes of CO
his property's potential production	6.2 tonnes of CO

u could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

ese ratings are based on assumptions about average occupancy and energy use. People living at the property may use differen nounts of energy.

teps you could take to save energy

e assessor did not make any recommendations for this property.

dvice on making energy saving improvements

t detailed recommendations and cost estimates

elp paying for energy saving improvements

u may be eligible for help with the cost of improvements:

Heat pumps and biomass boilers: Boiler Upgrade Scheme

Who to contact about this certificate

ontacting the assessor

ou're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

ssessor's name	Stuart Harrison
elephone	01189770690
mail	epc@nichecom.co.uk

ontacting the accreditation scheme

ou're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

ccreditation scheme	Elmhurst Energy Systems Ltd
ssessor's ID	EES/021901
elephone	01455 883 250
mail	enquiries@elmhurstenergy.co.uk

bout this assessment

ssessor's declaration	No related party
ate of assessment	5 August 2026
ate of certificate	10 August 2026
